

# NEW Windows Collaboration Display PN-CD701

Make your office smarter

POINT

1

## Always smarter meeting

- PN-CD701 has got Microsoft's Windows Collaboration Display cert. It is the Best device for using Office365 collaboration tools.
- USB Type-C connector provides high-speed, high-bandwidth data transfer for multiple functions\*
- Sharp Synappx WorkSpaces: provides clear, visual information to enable more efficient room booking and utilization and create comfortable meeting and training room environments for more productive collaboration and learning, while also improving overall facilities management.

POINT

2

## A more natural approach

- 70 inch sized 4K screen with PCAP touch panel and special passive pen provides "Pen-on-paper" handwriting experience.

POINT

3

## Look and work smarter

- Stylish design: Enable easy and quick control by using the on screen display
- Effortless device sharing: built-in wireless casting works with Windows and Android™

\*4K Video, Network and application data and power for attached mobile devices.
